

SANITATION

JABSCO Manual Marine Toilet With New Twist and Lock Handle

The pump assembly is angled forward to provide a natural smooth stroke action and the convenient top mounted dry bowl selector is easy to operate. If desired, the pump and base can be assembled for left hand installation. The base assembly is fully skirted to eliminate the debris traps associated with most other toilets. Should the seal ever need to be replaced, the external seal and rod guide assembly can be easily removed without disassembling the pump. Dimensions: 17 $\frac{3}{4}$ "W x 10 $\frac{3}{4}$ "D x 13 $\frac{3}{8}$ "H.

JABSCO Macerator Pump

Grinds waste into small particles for easy discharge.

Fully enclosed with stainless steel shaft. Includes Run Dry Protection with self-priming flexible impeller and stainless wearplate making this pump the ideal solution for emptying marine holding tanks. The unit is self-priming to a 5' lift when wet. The macerator section grinds waste to $\frac{1}{8}$ " or smaller. FLOW rate is 12 GPM. 12 Volt. 15/20 Amps. 1 $\frac{1}{2}$ " NPT inlet.

JABSCO "Y" Valve

our price
\$69⁹⁹

The Jabsco Y-Valve diverts waste from a toilet to either an onboard holding tank or directly overboard where legal to do so. It can be used to direct waste from a holding tank to either an onboard discharge pump or a deck waste fitting for dockside pumpout. Its self cleaning design provides trouble free operation. The large, easy-to-turn handle has an integral locking ring that allows it to be locked or sealed in either position. The 1 $\frac{1}{2}$ " curved discharge ports can be rotated through 360° so the discharge hoses can be routed away in parallel, at 90° to each other, in opposite directions or either up or down. It is supplied with both a 1 $\frac{1}{2}$ " (fitted) and 1" straight inlet port for easy attachment to toilets with 1" discharge hoses.
