## Accessory-Ready™ T-Top

- Ideal for customizing selection, color and finish
- Male splines offer easy alignment
- Weld cover hides welds for an attractive, clean look
- Spline design allows for fanning in multiple positions
- Eliminates welding and crazing caused by traditional methods requiring welding to anodized pipe
- Rod holders remove easily with standard allen wrench or optional thumb screw
- Polished, Bright Dip Anodized – Simulated stainless steel finish for corrosive and highly aesthetically critical environments requiring the most blemish-free aluminum extrusion available. Most extrusion flow lines are removed during the polishing process.
- Standard Anodized Finishes
