BoatLIFE Life-Seal®

Combining polyurethane and Silicone, Life-Seal® provides the best of both worlds. It is fast skinning (10 minutes) and fast curing (24 hours). It will remain flexible for years and years, and will not harden like basic Polyurethanes. It has been designed as the ideal sealant for fiberglass boats and can be used above or below the waterline. For wooden boats we recommend Life-Calk® Polysulfide sealant.
