Unepoxy Standard

Old Reliable — a mid-Atlantic favorite!
A general-purpose antifouling paint.

Excellent adhesion to fiberglass, wood and properly primed steel hulls. Compatible with most previously applied antifouling paints.

- No. PET 1228 — Blue **our price \$42.99** Quart
- No. PET 1328 — Green **our price \$94.99** Gallon
- No. PET 1628 — Red
- No. PET 1810 — Black

Ultima SSA (Single Season Ablative)

Protects all hull bottoms, woods, fiberglass and properly primed steel from attachment of marine organisms in salt and fresh water. Intended as an affordable single-season ablative.

- No. PET 1281 — Blue
- No. PET 1282 — Dark Blue
- No. PET 1381 — Green **our price \$104.99** Gallon
- No. PET 1681 — Red
- No. PET 1881 — Black

ULTIMA SR 40

An antifouling protective coating resistant to slime, algae, barnacles and other marine fouling. The combination of cuprous oxide with an organic algicide offers unprecedented control over all types of fouling even in the most severe fouling areas. Its unique controlled erosion minimizes coating build up and keeps underwater surfaces smooth and clean.

- Dual Biocide with Ablative technology
- Great protection using less copper
- Slightly Cleaner Colors and will apply a little smoother due to the lighter copper loading

- No. PET 1092G — Blue
- No. PET 1093G — Green **our price \$199.99** Gallon
- No. PET 1096G — Red
- No. PET 1098G — Black

Micron CSC

Best-selling ablative! One of the most effective copper-based antifouling paints ever developed. Copper co-polymer formula provides controlled release of antifouling agent.

- No. INT 5580 — Blue
- No. INT 5583 — Black
- No. INT 5581 — Green
- No. INT 5584 — Shark White
- No. INT 5582 — Red

Fiberglass Bottomkote® Classic

Fiberglass Bottomkote Classic is a hard modified epoxy, fast dry antifouling paint with clean stable colors that provides effective season-long protection. The fast dry formula allows the boat to be painted and launched in the same day. Recommended for use on the underwater areas of fiberglass, wood, and properly primed metal (except aluminum) boat hulls. It can be used in fresh, salt and brackish waters.

- No. INT YBB449 — Red
- No. INT YBB559 — Green
- No. INT YBB669 — Blue
- No. INT YBB779 — Black

TRINIDAD PRO

Dual Biocide Hard Antifouling

Trinidad Pro aggressively combats even the most torrid, tropical fouling conditions and at the same time reduces annual hull maintenance. The only hard antifouling paint with dual biocides which is designed for the professional applicator. Use Thinner 120. Gallons

- No. PET 1082G — Blue
- No. PET 1083G — Green
- No. PET 1086G — Red
- No. PET 1088G — Black

our price \$249.99 Gallon

AQUAGARD

Bottom-Gard Anti-Fouling Paint

Solvent based 25% Cuprous Oxide

- For Fiberglass & Wooden Boats
- Ablative Action Repels Barnacles & Other Growth
- Outstanding Value & Great Results

- No. AQG 60101 — Black
- No. AQG 60102 — Red
- No. AQG 60103 — Blue

our price \$79.99 Gallon

WATER-BASED ENVIRONMENTALLY FRIENDLY BOTTOM PAINTS

AQUAGARD

Waterbase Antifouling Boat Bottom Paint

Fast-drying ablative, can easily be cleaned with soap and water. EPA registered and environmentally responsible. May be used over previously painted fiberglass or wooden boats without a primer, provided the surfaces are properly prepared. Can be applied indoors to bottom of boats. Can be burnished. Coverage: Approximately 400 sq. ft./gallon. Painted boats can be stored up to 12 months before launching.

our price \$149.99 Gallon

Interlux Fiberglass Bottomkote® Aqua

Hard acrylic antifouling paint provides a hard, scrubable finish that gives premium protection from all forms of fouling. It can be used on either cruising or performance boats and can be wet-sanded to provide a smooth racing finish. Fiberglass Bottomkote® Aqua is low in VOC, which limits solvent emission into the atmosphere and can be cleaned up with soap and water.
